PROFESSIONAL SUMMARY

Senior Technical Writer with 8+ years of experience leading end-to-end documentation initiatives for enterprise software products across Healthcare, SAP ERP, and E-commerce domains. Proven expertise in independently owning the complete documentation lifecycle—from information gathering and content strategy to authoring, technical reviews, publishing, and ongoing maintenance—with minimal supervision. Skilled at partnering with Product Managers, Software Engineers, QA Engineers, SMEs, and IT teams to plan, write, and publish high-quality documentation aligned with Agile sprint cycles, product delivery plans, and software releases. Experienced in creating developer documentation, API documentation, implementation guides, release notes, customer-facing knowledge bases, installation and configuration guides, and structured technical content using Docs-as-Code practices. Hands-on experience with REST APIs, Swagger/OpenAPI, Postman, Markdown, XML/DITA, Confluence, Document360, Git, and Docusaurus. Passionate about building scalable, user-centric documentation that improves product adoption, enhances customer self-service, and enables successful software delivery.

CORE COMPETENCIES

Independent Documentation Ownership • Developer & API Documentation (REST, Swagger/OpenAPI, Postman) • Docs-as-Code (Markdown, Git, CI/CD Publishing) • Release Notes & Product Documentation • Cross-Functional Collaboration (Software Engineers, QA, Product Managers, Solution Engineers, SMEs) • Information Architecture & Content Strategy • Structured Authoring (XML/DITA) • Knowledge Base Development & Content Management • Documentation Governance, Style Guides & Content Standards • Ticket-Based Documentation Workflows (Jira, Azure DevOps) • Agile/Scrum SDLC & Documentation Planning

PROFESSIONAL EXPERIENCE

Senior Technical Writer (Senior Associate) | Cognizant Technology Solutions Oct 2024 – Present | Chennai, India

Product: TriZetto QNXT — Healthcare SaaS Platform

- Independently own the end-to-end documentation lifecycle for TriZetto QNXT Healthcare SaaS releases, including planning, content development, technical reviews, publishing, and post-release maintenance, ensuring high-quality deliverables aligned with product milestones.
- Collaborate with Product Managers, Software Engineers, QA Engineers, and SMEs throughout the SDLC to gather technical requirements, validate content accuracy, and deliver release-ready documentation.
- Own the creation of implementation guides, installation guides, API documentation, release notes, troubleshooting guides, and customer-facing product documentation to support enterprise healthcare deployments.
- Develop REST API documentation using Swagger/OpenAPI specifications and Postman, documenting endpoints, request/response models, authentication, and integration workflows.
- Participate in Agile sprint planning, backlog refinement, sprint reviews, and release planning to ensure documentation is delivered as part of each sprint commitment.
- Lead documentation review cycles with SMEs and cross-functional stakeholders, incorporating technical feedback to ensure documentation quality, consistency, and release readiness.
- Manage documentation updates across major releases, service packs, and hotfixes while tracking documentation tasks through Azure DevOps to ensure timely publication.
- Mentor team members on documentation standards, content quality, style guide compliance, and peer review best practices.

Tools: Confluence, Azure DevOps, Swagger/OpenAPI, Postman, Markdown, Camtasia

Technical Writer | Evora IT Solutions Pvt. Ltd. Jun 2022 – Oct 2024 | Bengaluru, India

Product: EvoSuite — SAP ERP SaaS Platform

- Served as the sole Technical Writer for the EvoSuite product suite, independently owning the complete documentation lifecycle—from planning and information gathering to authoring, publishing, and ongoing maintenance with full responsibility for projects from day one.
- Designed and launched a customer-facing knowledge base from scratch using Document360, defining the information architecture, navigation, taxonomy, templates, and documentation standards.
- Created installation guides, configuration guides, administrator guides, release notes, troubleshooting guides, FAQs, and customer-facing product documentation aligned with Agile sprint releases.
- Performed hands-on product validation prior to publication to verify documentation accuracy and ensure technical content reflected actual product behaviour.
- Produced English source documentation for German and Spanish localization, collaborating with translation teams to ensure technical accuracy and terminology consistency.

Tools: Document360, Jira, Confluence, Markdown

Technical Writer | Grab A Grub Services Pvt. Ltd. Aug 2021 – Jun 2022 | Bengaluru, India

- Served as the sole Technical Writer for web and mobile products, independently owning the complete documentation lifecycle from SME requirement gathering through publishing and ongoing maintenance.
- Partnered with Product Managers, Business Analysts, Software Engineers, QA Engineers, UI/UX Designers, and SMEs to gather requirements, validate technical content, and deliver release-ready documentation.
- Created user guides, functional specifications, product documentation, release notes, knowledge base articles, PRDs, BRDs, and process documentation to support internal teams and end users.
- Participated in feature discussions, UI reviews, and sprint activities to ensure documentation accurately reflected product functionality before each release.

Tools: Microsoft Word, Microsoft Visio, Snagit

Technical Writer | Cades Studec Technologies India Pvt. Ltd. Mar 2018 – Aug 2021 | Bengaluru, India

- Managed the complete Document Development Lifecycle (DDLC) using XML/DITA structured authoring, enabling single-source publishing across multiple output formats.
- Created and maintained technical manuals and procedural documentation, collaborating with engineering SMEs to ensure technical accuracy and compliance with quality standards.
- Used Arbortext Editor and Madcap Flare to develop structured technical publications while maintaining consistency, content reuse, and version control.
- Participated in documentation reviews and quality assurance activities to ensure technical publications met customer, regulatory, and quality requirements.

Tools: Arbortext Editor, Madcap Flare, XML/DITA

KEY ACHIEVEMENTS

- Served as the sole Technical Writer across two organizations, independently leading documentation planning, content strategy, authoring, publishing, and maintenance with minimal supervision.
- Designed and built a customer-facing knowledge base from scratch using Document360, establishing the information architecture, taxonomy, navigation, templates, and documentation governance framework.
- Developed implementation guides, troubleshooting guides, API documentation, and customer-facing product documentation that empowered customer self-service and reduced dependency on engineering teams for routine technical support.
- Introduced reusable documentation templates and AI-assisted authoring practices to improve content consistency and streamline documentation workflows.
- Delivered English source documentation for German and Spanish localization, collaborating with translation teams to maintain technical accuracy and terminology consistency.
